

THE ABILENE

REFLECTOR.

VOL. 3.

ABILENE, DICKINSON COUNTY, KANSAS, JULY 8, 1886.

NO. 45.

BUSINESS INDEX.

The Vigorous Enterprise and Spirit of Abilene.

OUR SOLID BUSINESS MEN

An Accurate Map of the Business of Abilene.

A Guide Post Pointing to the Whereabouts of Abilene's Capital, Energy and Genius.

Those Who Contribute to Our Commercial, Industrial and Professional Activity.

READ AND PRESERVE.

The carefully classified and arranged directory of the business houses, manufacturing establishments and professional firms, which the REFLECTOR of this issue is largely devoted, is a flattering testimonial to the vigorous enterprise and spirit of the community, and a compliment to the newspaper in which the display appears. It is a very handsome showing, and contains the names of enterprising and leading citizens who have earned and are in the full enjoyment of good and honorable reputations in the sphere of commerce, manufacture and the professions. The mention in each instance is brief, but sufficiently full to indicate clearly the nature and extent of each firm's or individual's business or profession. We claim for them, one and all, that they are distinguished for enterprise, ability, probity and success. They are foremost merchants, manufacturers, lawyers, etc. Taken together, they may fairly be regarded as leaders in the different departments of commercial, industrial and professional activity.

We are assured that it would be quite within the bounds of truth to say that but few cities in Kansas surpass us in trade.

The city is equally the receiving and distributing point for a wide extent of as fine a country as is embraced by the smiling expanse of heaven.

The capital, the energy and the genius of Abilene should be ready to seize upon and make the most of her great natural advantages. This done, business and trade of every description will flow in and from a population of 5,000 there is no unavoidable reason why in five years Abilene may not have within her ample borders 10,000 souls.

This is one of the considerations that make this index valuable, but it is not its leading one. Its greatest value is in the record of its leading business men of to-day; to notify the people of what is actually on our streets for their use and comfort, of necessities and luxuries, and to guide them in supplying their multifarious wants. Those who receive it will do well to retain this impression for future reference, and put it in a conspicuous place in their offices or places of business. Being carefully compiled, convenient in form and comprehensive in character, it is worth preserving.

To the general reader this directory will not be without interest, affording, as it does, an accurate map of the business of Abilene, and showing the general expansion of the business of the city during the past few years. It is of sufficient moment to every citizen at heart to insure it a widely extended circulation.

Attorneys at Law.

Stambaugh, Hurd & Dewey.
LAWYERS.
